

Los sustantivos españoles más comunes - Hogar y objetos

A top-down view of a collection of everyday objects, including a clock, scissors, a book, a camera, a smartphone, a pen, a bottle, a cup, a bag, and various tools, arranged in a grid-like pattern on a light-colored surface. The objects are meticulously placed, creating a sense of order and composition. The lighting is soft, casting gentle shadows that emphasize the three-dimensional nature of the items. The overall aesthetic is clean and modern, with a focus on the textures and forms of the objects.
